Ongoing.

Note: While not everything in this story follows existing canon, as it takes place after season 2 of She-Ra (i.e. season 3 and 4 did not happen), the events of "Change Your Mind" (CYM) for Steven Universe, in spring 2015, and after season 1 of Carmen Sandiego (i.e. season 2 did not happen). I want to make that clear. The post-S1 of Carmen Sandiego, which ends in February 2019 per the "Current Timeline (Season 2 Spoilers, Beware)" assembled by u/KingArtoriusRex, is kept intact. Additionally, the events of the Steven Universe movie do NOT happen in this timeline. Otherwise, timelines of other existing shows are maintained due to the fact the events either happen after the conclusion of their story (in the case of Revolutionary Girl Utena) or during the gap between episodes (in the case of RIN: Daughters of Mnemosyne).

8. Adora and Pearl have an intimate moment on the beach together[62]

NOTE: *While they warped to Etheria in Spring 2015 (when CYM ended as noted by "The Complete Steven Universe Timeline So Far" on Channel Frederator's YouTube channel), a time fluctuation causes them to not return to Earth until Spring 2019, hence, 2019 is used here instead of 2015, establishing a line of continuity.*

Early April 2019:

1. Six weeks after her fight with Coach Brunt in Poitiers, she gets a new assignment: going to Beach City to stop V.I.L.E.; she is helped by Player, Zack, and Ivy; Chase and Julia are stumped at where she is[63]
2. Her new assignment is actually part of the "social experiment" Entrapta conducts on unsuspecting CGs and their friends; but she does not know this at the time[64]
3. It's only been a few days since Steven, the Gems, and Adora have arrived from Etheria only a few days prior; they are still adjusting[65]
4. Steven, Connie, and the Gems encounter Silky Snapper; they easily defeat her, but Carmen's arrival allows this villain to escape; confronted by Pearl, Adora develops a crush with this new brown-haired woman[66]

6. Pearl feels jealous of Adora's crush on Carmen, feels worthless, warps to the Strawberry Battlefield (as tracked by Peri)...and is calmed down by Steven[68]

Next Day [Day 2 of Carmen with the Crystal Gems]:

1. Steven starts to make breakfast for everyone[69]
2. Peri talks to Player, strikes up a friendship; Pearl is shocked by files that seem to say V.I.L.E. wants to harvest energy from the Crystal Heart; while the general scheme is part of Entrapta's social manipulation, Maelstrom's video (very broad, only talking about a "place" and not the Crystal Heart) is likely genuine, just part of a scheme that never existed; they did not know this at the time.[70]
3. They overhear Silky talking about getting drills from the Prime Kindergarten; it is not known for what purpose they are doing this, as the stated purpose was part of Entrapta's social manipulation[71]
4. Steven, Adora, and Pearl, possibly getting help from Bismuth and Connie, stay behind to protect what they think is an attack on the Crystal Heart[72]
5. Amethyst and Garnet stop the V.I.L.E. henchmen from stealing the drills; shoot them into the ocean; they damage Dr. Maelstrom's ship, helping Lapis, Peri, and Carmen, as Silky is distracted; they capture the Crackle Rod Cannon after firing it on his ship, sinking it; Silky saves Maelstrom, V.I.L.E. henchmen escape[73]
6. Lapis, Peri, and Carmen leave with the Crackle Rod Cannon on the way back to Beach City with Zack and Ivy, along with a few V.I.L.E. henchmen; Maelstrom vows vengeance on them all[74]

One week later, mid-April:

1. Carmen, Pearl, Adora, Zack, and Ivy go to Japan, with Lapis and Peri on standby at the Galaxy Warp in the Tunguska Sea; Utena sprays sleeping gas on Carmen, Pearl, Adora, Zack, and Ivy (CPAZI), brings them back to her and Anthy's house[75]
2. CPAZI learn that Lapis and Peri of friends of Utena, Anthy, and Chu-Chu, part of a video chat between same-sex couples/partners named REZU; Carmen asks Player to look into Utena and Anthy[76]

5. Carmen relaxes in a tub in Utena and Anthy's house; Lapis and Peri are more open about their relationship than they had in the past; Utena takes a refreshing bath
6. Steven and Connie release V.I.L.E. henchmen, after it is clear they have no actionable information, and they begin a trek across America.[79]

One week later, late April:

1. Lapis and Peri host first episode of their talk show, assisted by Steven, Greg, and Connie; they interview Utena about events in Japan, get callers like Ronaldo, Bismuth, and Connie's mother[80]
2. We learn that Peri and Pearl had been testing the candy beings, finding out about their functions[81]
3. Dealing with trauma from what happened in Japan, Carmen, assisted by Player, Bismuth, Amethyst, Pearl, and Garnet, breaks into A.C.M.E. HQ in Lyons, France; she works with them, including The Chief and Julia/Jules to plan the assault on V.I.L.E. Island together[82]
4. After getting a call from Carmen, Lapis, Peri, Pumpkin, Stevonnie, and Bismuth (LPPSB) go to Japan in the Peri-Jet, crash at Utena and Anthy's House; they play a game of Japanese chess (shogi); prepare for the trouble at the Candy Settlement in the day to come; they have fun with Pumpkin[83]

Next day:

1. LPPSB have breakfast with Utena, Anthy, and Chu-Chu; Lapis and Peri reveal their love for food[84]
2. LPPSB and Utena travel to the Candy Settlement; they face henchmen, El Topo, Le Chevre, Tigress, Paper Star, and Silky Snapper...all are defeated, first frozen in ice by Lapis, later tied up by Anthy with magical ropes[85]

4. Carmen, Pearl, Adora, Garnet, Julia, Amethyst, and A.C.M.E. agents assault V.I.L.E. Isle in an early morning raid; they are divided into three teams: one led by Amethyst to get the data from beneath the main V.I.L.E. Academy building, another led by Julia to move into the secondary building, and the main team with the 'heavy hitters': Carmen, Pearl, Adora, and Garnet[87]
5. The assault is a success, with the capture of Coach Brunt, V.I.L.E students, Dr. Maelstrom, the Cleaners, Dr. Saira Bellum, and Countess Cleo; Shadowsan helps them defeat V.I.L.E.; those captured are sent to the remote A.C.M.E. base in Siberia[88]
6. The Chief and Player collaborate to recover all the data files from V.I.L.E Island; Jules gets approval to create a museum about V.I.L.E. despite Shadowsan's reservations[89]
7. Bismuth hangs out in Beach City with Lars and the Off Colors[90]

Following day:

1. Presumably Bismuth goes to a concert of Sadie Killer and the Suspects[91]
2. A.C.M.E. agents are about to bring El Topo and Le Chevre to secret base in Siberia; Paper Star turns into Candy Star when Candy settlement fires upon helicopters; Lapis does the job instead[92]
3. Peri, Pumpkin, and Stevonnie wait by the Peri-Jet; later all of them, plus Lapis, leave and return to Beach City.[93]
4. With some prompting by Pearl, who is sitting in the A.C.M.E. Siberia base, Peri calls her with her tablet, beginning a video chat with Adora (using Pearl's phone), and connecting to Bow in Etheria...with Glimmer also joining in; Peri and Bow talk to each other, catching up[94]
5. After some push from Bow...and Glimmer, Adora pushes Peri to contact Carmen, on V.I.L.E. Island with Julia, Amethyst, and A.C.M.E. agents, setting up another video chat for her[95]
6. Adora asks Carmen out on a date, surprising Pearl while Garnet snickers; they decide to go to the Floridian Archipelago the following Wednesday[96]
7. Pearl berates Adora on the action, but calms down with the reassurance they'll later go on their own world tour...together[97]
8. Adora tells Peri about her date, Lapis agrees to a favor to fly in Adora a certain way into the Floridian Archipelago[98]

9. Pearl and Adora bond, fusing together into Peadora for the first time; shows Garnet this new fusion, along with Connie, Steven, Lapis, and Peri; Stevonnie and Peadora plan a future date to travel to Gem sites together; Peadora sleeps in the Siberia base with Garnet[99]

Sometime after this, V.I.L.E. Academy is destroyed; gathering of data and artifacts comes to an end; this is loosely implied during Carmen and Adora's date one week later.[100]

One week later, early May:

1. Adora and Carmen have a date in the Floridian Archipelago, specifically the Tampa Lagoon; Lapis brings Adora to the Lagoon; as they have fun there, they are watched by Entrapta secretly[101]
2. Pink hand comes out of portal near Tampa Lagoon, talking about an 'experiment'; its origin is not known; drone is damaged by its magic dust and later self-destructs, almost killing Carmen[102]
3. Entrapta ends her social meddling, recognizing Perfuma's advice, and the two become better friends, even singing a song together; Entrapta continues her surveillance of Gems and friends on Earth[103]
4. Adora tells about her date with Carmen, surprises everyone; late at night, Pearl expresses her love for Adora, they kiss on a beach near the Beach House[104]
5. Sometime during this period, Perfuma begins living with Entrapta in Dryl.[105]

Three weeks later, late May:

1. Jules and Carmen begin dating.[106]

2. Jules and Carmen return to Tokyo on the back of Amazonite (fused Lapis and Peri); Pearl and Adora, fused as Peadora, along with Mimi and Rin face off four angels and an assassin, Laura...they are victorious[109]
3. Steven learns, from his father, the truth: he had been gone in Etheria for ***four years,*** not a week as he had thought (they had been there six days, in fact, so his estimate wasn't off), causing a bit of mental breakdown; he comes around to the fact and accepts the reality[110]
4. It has been 62 days (if we say they started planting it on April 6, 2019) since they started planting hemp, allowing Lapis and Peri to make a hemp shirt for Adora, as hemp plants can mature for fiber production in 60-90 days, with this falling into that window of time; this also allows them to make a hemp dress for Utena, shown the next day; their hemp production is then in a very primitive state[111]

Night of June 7-8:

1. Peri, Lapis, Adora, Pearl, and Mimi crash at Rin's lush apartment in Tokyo; Mimi, Rin, and Adora enjoy some wine as the others are asleep; Mimi lets Adora keep her outfit, returning what she had been wearing previously, ending their crossdressing...for now[112]

June 8:

1. Trial of Catra in Etheria: Governor Pax, Adora, Bow, Glimmer, Mermista, Netossa, Sea Hawk, Swift Wind, Shadow Weaver, Scorpia, and Entrapta all testify; she is convicted on all counts (collaboration with the Horde, aiding and abetting the indiscriminate attack on a civilian town, grievously injured royalty, kidnapped said royalty, part of a conspiracy to steal historical artifacts, assisted in weather exploitation for devious ends, attempted to destroy a magical gateway, and assaulted a fortified castle.)[113]
2. Adora and Mimi drank shot glasses of vodka together at Rin's apartment; Pearl got angry at her, saying she was underage drinking, Adora calmed her down[114]
3. Mimi and Pearl begin to bond more, Adora feels left out, while they drive from Rin's apartment to the train station[115]
4. They take the commuter rail from Tokyo to Miura, depart and go to Utena and Anthy's house in the country, starving, hoping to meet Lapis and Peri there.[116]
5. Rin and Mimi spend the day together; Lapis and Peri decide to stay at Utena and Anthy's house; Steven, Greg, Connie, Adora, and Pearl warp back to Beach City, Steven especially distressed by Lapis and Peri leaving them[117]

June 9:

1. The Roaming Eye ends up in Beach City, with Doc, Army, and Leggy giving Steven a new Diamond Communicator, with a “distress message” from the Diamonds; this turns out to be a ruse by the Diamonds, who are preparing for war.[118]
2. Adora sings a sweet song for Pearl, after kissing her on the lips, checking all the warp pads on Earth for activity; Steven, Garnet, Amethyst, and Connie check the Moon Base via Lion, see nothing except more pink candy beings which Steven bubbles[119]
3. When Steven, Garnet, Amethyst, and Connie warp back to Earth via Lion it causes a rip in the “fabric of space time”[120] This rip causes Bonnie and Marcy to arrive there, as they are leaving the Moon; the mix of the warp stream and the time dilator causes them to travel forward in time one year, rather than backward.[121]
4. Lapis and Peri are living with Utena and Anthy (who have been living in the Miura countryside for 20 years, since 1999)[122]
5. Lapis and Peri showcase the hemp dress they made for Utena to Mimi; Utena wears the dress and is able to showcase their wares, convincing Mimi to finance them, start off their business[123]
6. Adora, Pearl, Steven, Connie, Amethyst, and Garnet relax in the Beach House, playing Word Scramble; presumably Bismuth is there too[124]
7. Jules meets Shuichi Nitori (otherwise known as Yuri/Lily), a physician, and their joyfriend, Anna Suehiro, a fashion model; Yuri and Anna talk to Takatuski, working as a security guard at the V.I.L.E. Museum & Archives[125]
8. Yuri & Anna meet Jules’s girlfriend, Carmen; the latter connects with Yuri in an awkward way, inviting them to join the LEZU video chat[126]
9. Entrapta (“Apta”) and Perfuma (“Fuma”) show their increased friendship with each other; Fuma points out this is nothing like the romantic relationship Netossa and Spinnerella have, both of whom are married[127]
10. Apta calls Peri and Lapis in Miura, Fuma talks with them as well; Apta talks to Peri who tells her about the properties of hemp, Apta tells Peri about her probes on Earth, and is saved by Lapis who reveals she used the Earth observation orb on the Moon Base to watch Peri and others in secret...this leads to strains in the relationship between Lapis and Peri, which are soon smoothed over with the promise of a future meeting[128]

12. Apta invites Peri to join her inter-dimensional “club of inventors and experimenters,” an invitation she happily accepts[130]
13. Fuma brings Apta to the administrative center of Etheria, in Mystacor, where a possible trial and charges against her are dropped; the bureaucrats gain more power on the planet as a result, beginning a power struggle against the princesses[131]
14. Apta begins working in Mystacor to organize the bureaucratic mess of papers[132]
15. White and Yellow Diamond prepare a Gem army for departure, to invade an Earth[133]
16. Carmen tries to comfort a dissatisfied Jules, ending her job for the day (feeling it was “dull”), taking her on a hang glider trip; Yukari “Caroline” Hayasaka excited to see Carmen in the air, Anna tells her she knows Carmen[134]
17. Caroline observes Carmen and Jules crash into a Sarashina Incorporated (SRI) skyscraper; Carmen is made unconscious, while Jules is originally weak but conscious; lesbians from a nearby bar help Carmen and Jules, as does Caroline[135]
18. The Chief provides assistance to Carmen and Jules, virtually; paying for their treatment at Tokumori Hospital; as they are taken away Chizuru “Chi” Sarashina grouses about the scene[136]
19. Carmen wakes up, conscious, while Jules has entered a coma; she is visited by Lapis, Peri, Utena, and Anthy first and foremost; she is tended by Yuri, the physician serving as the nurse for the day; we learn that Utena and Anthy are believers in Shintoism[137]
20. Carmen talks to Player, informing him of her situation in the hospital[138]
21. Steven, Connie, Bismuth, Garnet, Pearl, Adora, and Amethyst relax in the Beach House, plating Cartel; Pearl receives a call from Peri, learning that her friend Carmen is in the hospital; Adora tries to comfort her; Steven is able to help by having his dad contact Uncle Andy, who comes in his biplane to Beach City[139]
22. Uncle Andy, Pearl, Adora, and Steven travel to Tokyo via biplane; the travel takes 37 hours, 30 minutes; this includes many stops along the way, including in Seattle and Anchorage[140]

2. Carmen learns that Lapis and Peri want to use former V.I.L.E. members to work on Utena & Anthy's farm in Miura; she secretly orders Shadowsan to get the V.I.LE. members out of the Siberian base by "any means necessary"[142]
3. Connie whisks away Pearli, Adora, and Steven back to Beach City; Steven says bye to Uncle Andy, who decides to continue traveling across the world[143]

3. Steven gives a secret mission to the Off Colors: to find out the truth behind the Diamond message Steven had watched back on June 9 with some of his friends[146]

June 13:

1. Shadowsan blows up the secret A.C.M.E. base in Siberia, spirits out the former V.I.L.E. members; A.C.M.E.'s head, The Chief, is shocked[147]
2. At the same time, Peadora, Bismuth, Stevonnie, and Sugilite conducted an assault on the A.C.M.E. headquarters, arresting them all for attempting to conduct medical and psychological experiments on the former V.I.L.E. members[148]
3. A.C.M.E. members sent to Antarctica in helicopters piloted by uncorrupted Gems
4. Bismuth and Sugilite go back to Beach City, Stevonnie and Peadora begin their long-awaited date across Earth[149]
5. Shadowsan's helicopter lands at Utena & Anthy's farm; Lapis and Peri are annoyed, as is Pumpkin; Shadowsan tells them that the former (and hypnotized) V.I.L.E. members (Coach Brunt, Dr. Saira Bellum, Dr. Maelstrom, Countess Cleo, the Cleaners, Tigress, El Topo, Le Chevre, and Mime Bomb) are "Carmen's present"; Lapis and Peri are delighted to have the "workers to help plant hemp at the farm and turn it into clothing"[150]

Mid-June 2019

1. Etheria begins to divide into two factions, the Alliance of Royal Restoration (A.R.R.) [Frosta, Glimmer, Mermista, Netossa, and Spinnerella] and the Coalition of Organizational Dignity on Etheria (C.O.D.E.) [Apta, Fuma, Spinnerella, Abbelina, Pax, Granjero]; Swift Wind leaves the planet altogether, searching for greener pastures[152]
2. Archives of Etheria begins to move from former Fright Zone location to Mystacor[153]

Late June 2019:

1. Etheria has been fully divided into A.R.R. and C.O.D.E. factions[154]
2. The Archives of Etheria, with Bow, George, Lance, and Angella have moved to Mystacor at this point[155]
3. Apta's facilities have been moved from Dryl to Mystacor[156]
4. Fuma has renounced her royal authority, transferring her signatory authority to her brother, Kelley, choosing him as her successor; he would hold power until "a new leader could be elected by a democratic vote"[157]
5. Compact of Etheria only has paper authority at this point, but "no one wanted to release those charged by the Etherian courts."[158]
6. Glimmer vows to build a rocket and totally annihilate the other side[159]
7. Apta and Fuma work together to begin the Runestone Draining Project (RDP)[160]
8. Work of Apta to streamline bureaucratic processes in Mystacor is clear at this point[161]

June 14:

1. Lars and the Off Colors agree to Steven's request to be ambassadors for Earth, but they encounter a mysterious ship[162]
2. Lars and the Off Colors, on their spaceship (the *Off Colors Astral Cruiser* or *OCAC*), engage in a dogfight with Marcy and Bonnie's ship, *Bonnibel Research, Investigation, and Observation Ship* (*BRIOS*), firing at each other; Lars later sends his autonomous ship, the *Autonomous Bialate Bomber* (*ABB*) to chase after them[163]

3. BRIOS is piloted by Bonnie onto the Earth's surface, chased through the city streets of Empire City, then later across the northern Atlantic Ocean, into Scandinavia, and Western Russia; Marcy comments on Lapis's cute hat as they continue into Eastern Russia, through the Tunguska Sea, still chased[164]
4. The chase brings them in the Pacific Ocean alongside Japan, where they are watched by Utena, who wishes she could be involved, warning Lapis and Peri, who are now in Maynilà, the capital of Rizalia, after getting advice from her partner, Anthy; Anthy is trying to use her magic on the "zombie workers" which are tending the hemp fields[165]
5. Somehow, the *BRIOS* catches up with the *ABB* and chases it; in the process, Pearl cowers behind Adora, who fires her shotgun at the *BRIOS*, damaging the time dilator, but also hurting Pearl[166]
6. Marcy sees the situation below, turns the ship around, notices that Pearl and Adora are clearly a couple, and asks Bonnie to dispatch a medical kit; she does so, attaching a photo of herself and Marcy, along with a handwritten note[167]
7. The *ABB* gets the advantage again, again chasing *BRIOS*, which tries to hide within the Indonesian islands[168]
8. Tired from the fight, Marcy pilots the *BRIOS* back into space and the *ABB* begins to falter; Lars has the *ABB* explode, causing damage to the *BRIOS*[169]
9. As a result of the *BRIOS* explosion, a wormhole opens up, sending the ship backward in time five days, to June 9, 2019[170]
10. Lars and the Off Colors return to Earth's surface, to meet with Steven, Pearl, and their other friends in Maynilà[171]
11. In Maynilà, Lars defends the acts of his crew, has to deal with Pink Steven, who hurts Pearl; Adora challenges Steven, who backs down and returns to his usual form; Lapis takes Steven back to Beach City to reflect on what he did[172]
12. After Pearl consents to Steven's ask that they be Earth's ambassadors, Lars reads the note Bonnie and Marcy left behind[173]
13. At Adora's suggestion, they plan to go to Etheria; before that can happen, Peri comes with Lars and his crew to the farm of Anthy and Utena's farm; Peri creates a new ship for them called the *Peri Autonomous Sailing Talisman* or *PAST* for short[174]
14. They leave Earth, bound for Etheria.[175]

June 15/16:

1. Arriving in orbit of Etheria, they hear three different messages, telling them that civil war is occurring on the planet.[176]
2. After avoiding an attack from ice shards, they land in Mystacor, greeted by Castaspella and Entrapta/Apta[177]
3. Perfuma/Fuma introduces herself to them, Apta tells them about bureaucracy there, her efforts to improve living conditions[178]
4. Apta activates an electrical field which traps the other Princesses; Lars tries the best he can to stay neutral[179]
5. Lars and some of the Off Colors travel with Fuma to Plumeria and Alwyn[180]
6. Their trip to other locations is cut short as Apta has the Runestone Draining Project (RDP) was activated; Lars and the Off Colors leave the planet[181]
7. Apta releases the Princesses from an electrical field, activates RDP which gives her the advantage, allowing citizens to seize power in Snows, Bright Moon, and Salineas, with the Princesses deprived of their power[182]
8. All the Princesses, now drained of their powers, agree to Apta's condition to improve the planet, leading to self-governance, but Glimmer does not; even with Bow's pleading, Glimmer jumps into a portal, going through the plains of space-time[183]
9. Glimmer's journey through spacetime doesn't go as she planned as the *OCAC*, on its warp to another planet, crisscrosses her spacetime pathway, leading to a distortion; the *OCAC* and Glimmer are sent in different directions to two alien planets[184]
10. Bow and Apta work together to disconnect the portal and dispose of it; Bow wears women's clothes[185]

August 17:

1. Lars and the Off Colors find themselves on the ocean floor of an alien planet, are recovered by Yunboros, asked by one woman of the salvage team, Bellows, on this planet why they are on Earth[186]
2. Space-time distortion has caused them to time-shift toward two months to this date[187]
3. Pinion and Ledo accompany Lars and the Off Colors back to Gargantia[188]
4. Amy bumps into Lars, they strike up a conversation[189]

5. Melty, Amy's friend, runs into Lars, hits on him until Saaya, her friend, pulls her away[190]
6. Ridget talks to Lars, later meets with Crown and Flange; Lars later coordinates with these Gargantians against the pirates[191]
7. Lukkage, the Pirate Queen, aims to attack Gargantia as revenge for Pinion dumping her; the *OCAC* damages all her ships; two vessels, with pirates aboard, fall into the trap, with Yunboros surrounding them; the pirates surrender[192]
8. Lukkage refuses to surrender, sword battles with Pinion, while Ledo stands nearby; Lars intervenes and his concussive boom knocks down Pinion, Ledo, and Lukkage, rendering them all unconscious; he is terrified that he hurt people[193]
9. Lars talks with Doctor Oldham, "The Sage" of Gargantia, who brings Lars to meet with Bebel; Amy, Melty, and Saaya happen to be there, with Melty embarrassed, still with a crush on Lars[194]
10. Lars begins writing in his journal, but it is snatched away by Melty who asks him to go out with her, again pulled away by Saaya[195]
11. Dr. Oldham then catches up with Lars, who wants to talk to him; they go to the ship's saloon, the Flaky Scamper, recovers Pappy and Fluorite after a bet[196]
12. Lars reunites with Rhodonite and the Rutile Twins; Dr. Oldham clears up misperceptions Rhodonite and Lars have about Gargantia[197]
13. Rhodonite, Lars, Pappy, and Doctor Oldham travel to his sanctuary, a library atop a spiral tower which is also a medical station, he shows them what he has there, they "meet" his children[198]
14. Rhodonite, Lars, Pappy, Doctor Oldham, and his children watch the beautiful sunset[199]

August 18:

1. Lukkage is put on trial, with Ridget asking hard questions, but it goes nowhere; she admits she tried to destroy Gargantia because Pinion dumped her[200]
2. Lukkage is thrown in the brig while Flange and Crown debate what to do, with Doctor Oldham en route; Flange, Crown, and Ridget can't agree on an approach for how to treat Lukkage, worrying that treating her the wrong way could lead to social conflict in Gargantia, specifically for the criminal elements in this floating community[201]
3. Lars brings Pappy and Rhodonite back to the OCAC, then joins Dr. Oldham in traveling to the command headquarters of Gargantia[202]

4. Lars suggests mediation between Pinion and Lukkage as a way to stop the impasse; Crown, Flange, and Ridget agree with this approach[203]
5. Pinion apologizes to Lukkage for hurting her, Lukkage claims she changed, Pinion asserts he will not be her boyfriend again, making Lukkage sad; she agrees to be Pinion's friend and "nothing more"[204]
6. Lars believes that his method of mediation has been a success; he tells Ridget about the warp pad he had installed in Doctor Oldham's library and how it works[205]
7. Melty stops Lars and wishes him a tearful goodbye, Lars gives Melty a photograph of himself (and accidentally one of Bonnie and Marcy), Melty gives Lars an illustration which was drawn by Amy[206]
8. Melty begins to sing a melancholy song, which continues as he runs toward the ship, echoing in the breeze, with Saaya and Amy likely singing along[207]
9. Ledo, Amy, Mayta, and other Gargantians wish him a goodbye; Melty roars that she loves Lars; Bebel sees the ship taking off from the window, wishing him safe travels[208]
10. Now outside the planet's gravitational pull, Lars orders RT to warp forward, which she does, while Pappy tells him about how Melty declared her love to him; Rhodonite assures him that accidentally giving Melty a photograph of Bonnie and Marcy won't mean anything, ultimately[209]
11. In an unknown planetary system, they are pulled out of warp, but can do nothing to stop it, so Lars has Fluorite cut the engines, Rhodonite charge the cannons, the Rutile Twins to keep the ship steady[210]

October 18:

1. Being pulled out of hyperspace by the Peridots causes another spacetime disruption, again a two month interval[211]
2. The Peridots want to attack Lars and the Off Colors because they hurt Emerald in the past and are loyal to her along with the Diamond empire[212]
3. One of the ships of the Peridots, which Lars calls a "Peri-Blaster," is destroyed by the missiles from the OCAC; the other three ships are damaged; still, the Peridots remain confident that they will be victorious in battle[213]

October [equivalent]:

1. The civil war in Etheria has ended, a network connects all the statelets on Etheria, run by the Central Etherian Data Center (CEDC) run by Apta, now with the title of Chief Technology Officer; Bow and Fuma are living with her, Fuma improving her cooking skills while growing a garden on Etheria[215]
2. Bow journeys to Mystacor, walks through the Whispering Woods, sees one of the newly-created computer centers[216]
3. In Mystacor he meets with his dads George and Lance, archivists at the Archives of Etheria, now permanently located there; Lance and Bow listen/watch a video of Adora's oral history interview with Lance earlier that year[217]

5. Back at the CEDC, Catra comes in disguise, Fuma letting her inside; Fuma leaves them, with Catra and Apta pledging to work together[219]
6. Catra and Apta do an experiment together, with Catra as the subject; it's Apta's new machine to transport people across the rifts of space-time[220]
7. Catra agrees to do it after learning that she will get to see Adora again and fully explain her feelings to her; she travels through time and space to Earth[221]
8. In Mystacor, Bow meets with his dads, George and Lance, and Angella, where they talk about the purpose of archives, specifically the Archives of Etheria[222]
9. Back at the CEDC, Fuma begins filming another one of her vlogs, this one on planting flowers; she gets sad and goes into meditation, but is able to sense Apta is leaving[223]

June 9, 2020

1. Bonnie and Marcy arrive on Earth, affected by the accidental rip in the fabric of space-time on June 9, 2019.[249] They crash-land near the candy settlement in Yokohama, after being shot down by Earth-Defense Systems, with their fate unknown.
2. As recounted by Officer Snarlepants in the hearing the next day, Bonnie and Marcy were recovered and brought to a hospital; materials were taken out of their ship and into the custody of the Earth Defense Force (EDF); the EDF brings Bonnie and Marcy to a hearing in Empire City the following day.[250]

June 10, 2020

1. Steven calls Connie in a video chat, asking them to attend a hearing of the World Court of Justice in Empire City about Bonnie and Marcy, what would later be called the "Yokohoma Incident"; Cleo wants to go because she feels cooped up in the house[251]
2. Connie and Cleo travel to Empire City, in the Empire State, on Cleo's hoverboard[252]
3. The hearing on the Yokohama Incident begins, with 20 members of the court (which are anonymous, unidentified) sitting on a panel to issue an advisory opinion[253]
4. The first person who gives testimony is Officer Snarlepants of the EDF, followed by testimony by Steven Universe[254]
5. Before further questions of Steven Universe, Connie and Cleo enter the room, sitting in the spectator area; Cleo is bored by this[255]
6. Considering what Steven has to say, the Chief Judge allows Steven to get Adora, Pearl, and Catra from the Nile Galaxy; he does so, and Catra is bored by this, like Cleo[256]
7. Pearl gives her testimony, while reading the note that Bonnie wrote her and Adora almost a year ago; Adora gives short testimony corroborating what Pearl said[257]
8. Bonnie, comforted by Marcy, tells her side of the story, in short, and makes a plea for decency; the court goes into recess before issuing an advisory opinion[258]
9. The court decides that Marcy and Bonnie be remanded into the custody of Steven and the Crystal Gems; Cleo, Catra, Adora, Bonnie, Marcy, Steven, Connie, Pearl, and Catra all travel back to the Beach House[259]
10. All eight of these individuals fall asleep at the Beach House, exhausted[260]
